

Splash Submission Guidelines

Announcing Homegrownclone's Splash Submission...Open To Everyone!

Because you have inspired us to do what we do with our site, we would be honored if you would help us celebrate homegrownclone Version 4. The premise is simple...design what homegrownclone means to you. Our new V.4 splash page will randomly feature your digital interpretations of US...homegrownclone.

Although we all wish our medium had no boundaries, sadly, we are confined to those required for design on the web. Feel free to be as creative as you'd like with your submission(s), but please design according the following criteria:

- 1) All entries must be submitted in either .gif or .jpg format.
- 2) Max file size is 500K and canvas size MUST be 700 pixels x 550 pixels.
- 3) We want your interpretations of "what homegrownclone means to you..."
- 4) There is no longer a deadline...submit whenever...
- 5) Absolutely NO bestiality, please.
- 6) Create as many works as you want, but make sure each is e-mailed to:
contests@homegrownclone.com
(Please Include your name and website with your submission)

**everyone is invited to submit...feel free to send this to others.

**this is NOT a contest...just a fun venue to display your work.
